

Registered Units

A wide range of sporting, cultural, recreational and community service activities are offered each year as Registered Units. Students are encouraged to involve themselves in Registered Units, which are a satisfying and relaxing complement to courses.

Registered Units are offered in units of differing lengths, carrying appropriate values. All Registered Units successfully completed are reported on the Year 12 Certificate and Secondary College Record. Units derived from this source will contribute towards the issue of a Year 12 Certificate.

Units and courses vary from year to year and season to season, depending on demand and the special interests and abilities of staff. Information regarding Registered Units is made available to students early in Semester 1 via STEP notices and Daily College News.

FOLLOWING IS A TYPICAL SAMPLE OF UNITS OFFERED.

Brain Gym Options

To add to the variety of Registered Units available, the College has added most of the courses available through the Brain Gym, the College's Community Education Program. Students wishing to enrol in any of these courses should contact the R unit coordinator. Students will be required to pay the set fees, less 5% discount.
